Drum, 27 May 1952, SECRET

**SECRET**

Memorandum to DCI fr Drum [redacted] providing duplicate statement of mission and functions for Office of Technical Services, for approval and publication as Agency Reg.

Comment: for reasons which are not yet pinpointed OTS designation never appeared in Reg., altho a draft of such a Reg did come to TSS for final approval. Believe that DDP was putting together a CS chart showing FI and PP Staffs and wanted TS Staff and Admin Staff titles retained for continuity.
